

COSMOLight®

INTERIOR & EXTERIOR COLLECTION

2026

Light is not
an accessory to a room.
It is its mood.

Cities look completely different at night. Warm lamps in narrow streets, neon reflected on wet pavement, a single bulb above a table where conversations last until dawn.

We bring that light home.

Light we bring back from our travels

Some stories begin in an office. Ours began on the road.

A gap year between university degrees, a backpack and a one-way ticket. Southeast Asia, then Korea and Japan. Cities that look completely different at night, because light defines their character: warm lamps in narrow streets, neon reflected on wet pavement, a single bulb above a table where conversations last until dawn. That was when I understood that light is not an accessory to a room. It is its mood.

I came home full of places, and in 2014, a year after graduating, I founded my first company. But interiors were not new to me. My parents have worked in the industry since the early 1990s, first importing office furniture from Italy, then manufacturing it in Poland, and finally opening a lighting and home furniture showroom in the mid 2000s. I grew up among sofas, tables and light fittings, listening to conversations about what makes people feel good in a room.

In 2015, CosmoLight was born. We started

with industrial loft lighting, but even our first collections included series such as Abu Dhabi, calmer and more classic, in a transitional and American spirit. That direction gradually became our DNA: timeless forms, refined finishes and lamps that outlast seasonal trends.

That is why our collections are named after cities. Each one carries the memory of a place, an atmosphere and a light we want to bring into your interior.

Today, CosmoLight represents the second generation of our family in interiors and more than a decade of experience in lighting. We work with authorised showrooms across Poland and increasingly abroad, because we believe a good lamp deserves a good conversation with an expert, not just a click. We are still travelling. And we still bring the light back with us.

Wojciech Kosmowski, founder of CosmoLight

Contents

The pages that follow list every fixture in the collection, grouped by type. Each entry shows the family name, the reference number and the page on which the full specification appears.

When yesterday inspires today

We do not chase seasonal trends. We look for forms that have proven themselves over decades and bring them into contemporary interiors. That is how we understand transitional and American style: classic proportions, brass, glass and fabric, without heaviness or excess.

Every series we create is named after a city. Abu Dhabi, Marbella, Volterra are not random words, but a record of places, moods and light we want to capture in a single fitting. Yesterday's elegance, today's function. A lamp that feels as much at home in a new apartment as in a house with a past.

Join our dealership

We are looking for showrooms that, like us, believe in timeless interiors and in the value of a good conversation with the client. We are not everywhere, and we do not want to be. We choose our partners carefully, so that each of them can build a stable, profitable offer on our brand.

As an authorised CosmoLight partner, you gain collections in a niche with limited competition, sales and marketing support, and the confidence of working with a brand that protects its sales channel.

Let's talk

*Let's talk about how CosmoLight can light up your showroom.
Register on our B2B platform at evolutionhome.pl/en/sign-in
for stock levels, net prices and product data in one place.*
